### **DETAILED ACTION**

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 43-49 have been renumbered 42-48.

### **RESTRICTION**

2. This application contains claims directed to the following patentably distinct species of the claimed invention: shown by different figures and embodiments, species I (claims 38-41) correspond to Fig. 2, species II (claims 1-2, 17-20, 28) corresponds to Figs 3-8, species III (claim 33) corresponds to Fig. 9, species VI (claims 3-4, 9-10) corresponds to Figs 10, species V (claim 34) corresponds to Fig. 11A, species VI (claims 11-16, 37) corresponds to Figs 11B-11D, species VII (claim 35) corresponds to Fig. 12, species VIII (claims 5-6, 36) corresponds to Fig 13, species IX (claim 7) corresponds to Fig. 14, species X (claims 8) corresponds to Fig 15, species XI (claims 21-27) corresponds to Figs. 16A-16B, species XII (claim 29) corresponds to Fig 17, species XIII (claim 30) corresponds to Fig. 18, species XIV (claim 31) corresponds to Fig 19, species XV (claims 32) corresponds to Fig. 20, species XVI (claims 42-48) corresponds to Fig 20B,

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is

Art Unit: 2623

finally held to be allowable. Currently, claims 3-4, 9 and 34 are generic to species IV-V and species VII-VIII.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP ' 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventor ship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 2623

remaining in the application. Any amendment of inventor ship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samir A. Ahmed whose telephone number is 703-305-9870. The examiner can normally be reached on Mon-Fri 8:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amelia Au can be reached on 703-308-6604. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
